Wiring for smart switch

- * Please wire for the switch according to the diagram:

Add Devices in Easy Mode(Recommend)

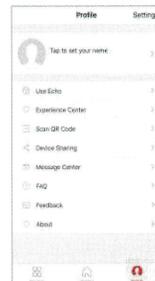

- * Make sure your smart device is energized and your mobile phone is connected to your Wi-Fi network. Long press any touchbutton for more than 3 seconds until the indicator light begin to flash quickly(2 times per second about), this means the device is already for configuration.
- * Open your “Smart Life” APP and tap “+” on the top right of the APP. Select Device Type, tap it and “Confirm indicator light rapidly blink”. These will automatically fetch the password of the Wi-Fi network that your mobile phone connects to. Then tap “Confirm” to connect to the device.
- * When appears “Successfully added 1 device”, it means the connection is complete and your device will be listed in your APP list.

Add Devices in AP Mode

- * If failed in Easy Mode, users could also add devices in AP Mode.
- * Long press any touchbutton for more than 5 seconds until the indicator light begin to flash quickly, then long press the power button for another 3 seconds until the indicator light begin to flash slowly, this means the device is already for configuration in the AP Mode.
- * Tap “ + ” on the top right of the APP. Select Device Type and tap it. Then select “AP Mode” on the top right of the APP. Tap “Confirm indicator light slowly blink” and “Confirm”. Then tap “Connect now” to go to the WLAN Settings interface in your mobile phone and select the Wi-Fi network named “SmartLife_XXXX” to connect it.
- * Return to the “Smart Life” APP, the connection will start automatically.
- * When appears “Successfully added 1 device”, it means the connection is complete and your device will be listed in your APP list.

Now you can control your smart device via your mobile phone APP anytime and anywhere (Make sure your mobile phone and smart device are all connected to the network).

You can share your devices with your friend or family after you add your devices successfully. More functions you will enjoy refer to the picture.

Notices

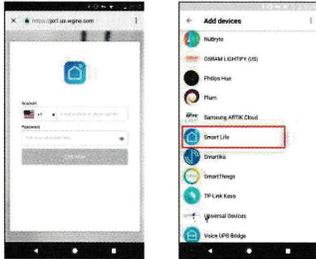

1. Please check if there is damage caused by transportation, if yes, please contact supplier for replacement.
2. Please follow the specification instruction and notice to keep products in a good and safe use condition.
3. Do not disassemble or install the device other wise there may cause security risks.
4. The smart switch need live wire and neutral wire for normal operation.

Link Smart Life account in Home Control

Attention: Due to the Google Home APP's known bug, you could use only one Google Home account to control "Home Control Action". If you sign in Google Home APP with several Google accounts, only the first Google account you signed in can be used for "Home Control".

- * Tap "Home Control" in the hamburger menu on the Google Home APP's Home Page, then tap "+".
- * Find "Smart Life" in the list. In the new window, select your Smart Life account region, type your Smart Life account and password, then tap "Link Now". After you assign rooms for devices, your devices will be listed in the Home Control page.

Control your smart devices
through Google Home

Now you can control your smart device through Google Home. Take bedroom light as the example, the supported voice commands are as below:

- OK Google, turn on/off bedroom light.
- OK Google, set bedroom light to 50 percent.
- OK Google, brighten/dim bedroom light.
- OK Google, set bedroom light to red.

Works with Amazon Alexa

Preparation

- * Amazon Alexa APP and account
- * Smart Life APP and account
- * An Echo device, including Echo, Echo Dot and Echo Tap .
- * Smart device.

Sign in with Smart Life account, add the device, then change the name to a easily recognized word or phrase, like "bedroom light".

Set up Echo with Amazon Alexa APP

Sign in with Amazon account. Tap the Homepage on the top left, tap "Settings" and "Set up a new device". Then follow the instructions.

Select a Echo device, long press the dot button on the top of your Echo device until the orange light shows up and tap "Continue". Then select your Wi-Fi network and connect it to your device according to the instructions. This may take several minutes.

Enable our skill in Alexa APP

- * Tap the Homepage, select “Skills”, then search “Smart Life”. Select “Smart Life” and tap “Enable Skill” to enable the Smart Life Skill.
- * You will be redirected to the account link page. Type your Smart Life account and password, do not forget to select the country/region where your account belongs to. Then tap “Link Now” to link your Smart Life account. When “Alexa has been successfully linked with Smart Life” shows up, you can leave this page. (Note: If a Smart Life account has been linked before, you can use it directly, you can also tap “Disable Skills” to remove it.)

Control your smart device through Echo

- * Echo need to discover your smart device before the control.
- * You can say “Alexa, discover device” to Echo, or you can also tap “Discover Device” on APP to discover the smart devices. Discovered devices will be shown in the list. (Note: Every time you change the name of devices on Smart Life APP, Echo must re-discover devices before the control.)

Now you can control your smart devices through Echo. You can use following commands to control your devices(e.g.,bedroom light):

Alexa, turn on/off bedroom light.

Alexa, set bedroom light to 50 percent.

Alexa, brighten/dim bedroom light.

Alexa, set bedroom light to red.

You can also set up groups in Alexa APP. Tap “Create group”, give your group a name like “my smart lights”, select devices to add them in this group, then tap “Save”. Now you can control your devices by group. If you say “Alexa turn on my smart lights”, all the lights will be turned on.

Q & A

Why failed in adding device?

- 1.Make sure the device is powered on and close to your mobile phone when adding device.
- 2.Make sure your mobile phone is connected to the Wi-Fi network and your Wi-Fi router is working properly.
